

## **Frankenstein: Walton's Narrative**

1. Read Walton's final journal entry of 12 September (p. 126 – 130).
2. Victor Frankenstein and his creature. Fill in the rest of the chart. Consider the whole story of Frankenstein when filling it in. Note that "characteristics" refers to both actions and emotions.

 <p>Victor Frankenstein</p>	<p>negative characteristics:</p> <ul style="list-style-type: none"> <li>-he's obsessed/madness</li> <li>-he created the monster</li> <li>-doesn't care for the monster</li> <li>-puts people life in danger</li> </ul>	<p>positive characteristics:</p> <ul style="list-style-type: none"> <li>-remorse (remorse) idk</li> <li>-he's a genius</li> </ul>
 <p>The Creature</p>	<p>negative characteristics:</p> <ul style="list-style-type: none"> <li>-scary and ugly</li> <li>- murderer</li> <li>-wants revenge</li> <li>-indirectly murders</li> </ul>	<p>positive characteristics:</p> <ul style="list-style-type: none"> <li>-he wasn't bad from the beginning</li> <li>-he just want's to be loved or to be accepted</li> </ul>

3. What monster? In your opinion, who is the real monster in the story and why?

In my opinion the humans are the monsters, because they created this creature and after that they hated it, they treated him like shit, but the monster has a human brain, so he thinks and feels exactly like a human.

4. "The Creature is an early form of AI". Find arguments for and against this statement.

Can't be an AI because he is a human
