Project: "How to travel…"

Task:	finding & preparing information about the culture of a specific country
	giving specific tips for travellers
Product:	"How to travel…"-video
Mark:	full mark for the video (group mark)

Step One – Research

Setting: You are in charge of a (fictional) travel YouTube video channel called "How to travel…" which addresses fellow travellers. In groups of two and three, choose a country to present to your classmates in the form of this travel video.

In a first step, you need to do research on your country.

Focus on the following topics:
- geography (where it is [with map], climate, what's special about the countryside, etc.)
- culture, people & daily life
- religion
- travelling the country as a tourist:
    - typical hot-spots/must-sees
    - typical must-dos?
    - important things that one must take care of
    - what to bring (clothes and other things)
    - other special tips

Step Two – Creating the video

After finishing your research, you will transform the results of your research into a commented video.

Your video must contain the following aspects:
- You need a title page (title = "How to travel + your country") with your names and class and the country you're giving information on.
- You must have a table of contents at the beginning & address your audience with information what this video is about.
- For the main part of your video, you can follow the order of the topics given above; don't forget to find a good ending.
- Outline/design of the video: Use an appropriate design for your target audience; make sure to link what you're saying with text, pictures and/or video sequences.
- Additionally, you will have to record the audio to your presentation. This audio comment leads the audience through the presentation, just like in a real presentation with a physical person standing in the front.
- Each member of the team has to record an equal amount of time.
- Length of video: 5 – 6' in group of two / 8-10' in group of three.

- Write a <u>bibliography</u> (end / last slide) in which you mention all the sources properly with their URL addresses (not just ~~https://www.wikipedia.org/~~, but: https://en.wikipedia.org/wiki/Japan)

Your mark:

Your video will be marked with a full mark according to the following criteria:

Language:
- Orthography
- Grammar
- Vocabulary

Content:
- Completeness
- Logical structure
- Correct style

Design:
- Guidelines
- Functionality
- Visual appeal

Your Schedule:

date	work
Monday/Tuesday, 6/7 September	free work on Steps 1 & 2
Monday/Tuesday, 13/14 September	free work on Steps 1 & 2
Monday/Tuesday, 20/21 September	free work on Steps 1 & 2
Monday/Tuesday, 27/28 September	free work on Steps 1 & 2 **Deadline:** hand in your video (upload in folder on Google Drive / Modul 2.1) by: **Thursday, 30 September, 8 p.m.** / late hand-in = deduction of mark (- ½ mark per 12 hours, for the whole team)
